#### Description of Outstandingly Remarkable Values (ORVs):

- **Cultural** – Rock art sites are the significant cultural resources along Indian Creek. Newspaper Rock, the best-known site along the Creek, is listed on the National Register of Historic Places. Native Americans, who have visited these sites, recognize images that relate to their migration history. Cultural resources represent the interface between two prehistoric cultural groups: Anasazi and Fremont. This interface is represented in unique motifs in the rock art in this area as well as within site features and artifacts such as ceramics and baskets.
